

GOLDFISH, GO FISH!

GOLDFISH, GO FISH! is a simple tale about an old lady and her goldfish. Though the old lady speaks only Hokkien and Mandarin, while the goldfish only blows bubbles, they have an intricate relationship with each other. While her neighbour speaks only Bahasa Indonesia, they listened and cared for each other. Even though her grown-up lawyer daughter spoke the same language, they could no longer hear what each other were saying.

Likewise, in today's hurried pace of life, how well do we really hear and listen what our love ones have to say to us. Just a little more effort to talk and listen... heart to heart.
